

FACE TECHNOLOGY: CHEMICAL PEELS

Dr. Dennis Gross is world renowned for the chemical peels he has developed and patented, which give unprecedented results without irritation.

This line of products features non-invasive gentle peels that result in little to no downtime, but still provide extraordinary results. While chemical peels are most commonly used on the face, they can also be done on the neck, backs of hands, décolletage, and the body.

Alpha Beta® Professional Peels: Dr. Dennis Gross' patented formulas use a blend of acids at low concentrations to deliver maximum benefits without irritation, dryness, or flaking.

Retinol Deeper peels: The Alpha Beta® prep followed by an active retinol solution, or vitamin A, and then an Hyaluronic Acid Occlusion Gel to maximize ingredient penetration and absorption of the anti-aging actives.

Vitamin C Energizing Collagen Facial **\$175**

Vitamin C is one of the most potent anti-aging ingredients. An antioxidant that destroys free radicals that break down collagen (which leads to wrinkles), This facial jumpstarts collagen production for firmer, healthier skin with both Vitamin C and an Alpha Beta Peel.

50 minutes

Hyaluronic Marine Hydrating Facial **\$175**

Replenish hydration, with this ultra-hydrating facial that gives skin an instantly plumped, smoother appearance. Hyaluronic acid quenches parched skin and holds up to 1,000 times its weight in water to draw in and bind moisture to the skin, cushioning it from environmental stress and dehydration. Facial includes Dr. Dennis Gross's Alpha Beta Peel.
